a) Current Quarter vs Preceding Year Corresponding Quarter

The Group recorded a profit before taxation of RM635.2 million for the current financial quarter, representing a decrease of 22.5% or RM184.0 million as compared to RM819.2 million recorded in the preceding year corresponding quarter.

The Group revenue of RM4,889.8 million for the current financial quarter ended 31 March 2025, represents a decrease of RM270.0 million or 5.2% as compared to RM5,159.8 million recorded in the preceding year corresponding quarter.

The performance of the respective operating business segments for the current financial quarter ended 31 March 2025 as compared to the preceding year corresponding quarter is analysed as follows:

Power Generation

The decrease in revenue and profit before taxation was mainly due to lower pool and retail prices, coupled with strengthening of Ringgit Malaysia against Singapore Dollar.

Water & Sewerage

The improvement in profit before taxation was mainly due to an increase in price as allowed by the regulator in the United Kingdom and inflationary pressures on index linked bonds which continued to recede.

The higher revenue was contributed primarily from an increase in price as allowed by the regulator in the United Kingdom and revenue contribution from Ranhill Utilities Berhad.

Telecommunications

The reduction in loss before taxation and higher revenue was mainly due to higher project revenue recorded.

Investment holding activities

The decrease in profit before taxation was mainly due to foreign exchange loss, partially offset by higher share of profits of investments accounted for using the equity method.

The increase in revenue was mainly due to the consultancy services recorded by Ranhill Utilities Berhad.

Performance of the respective operating business segments for the period ended 31 March 2025 as compared to the preceding year corresponding period was consistent with the notes mentioned in (a) above with the exception of the business segment mentioned below:

Investment holding activities

The decrease in profit before taxation was mainly due to unrealised foreign exchange loss (a non-cash item) arising from a shareholder loan extended to the Jordan project entity, partially offset by higher share of profits of investments accounted for using the equity method.

The increase in revenue was mainly due to the higher sales recorded from the Brabazon project in the United Kingdom and consultancy services recorded by Ranhill Utilities Berhad.

B3. Prospects

The prospects of the respective business segments of the Group for the financial year ending 30 June 2025 are set out below:

Power Generation

YTL PowerSeraya Pte. Limited ("YTL PowerSeraya"), has commenced construction of a 600MW hydrogen-ready Combined Cycle Gas Turbine (CCGT) at its Pulau Seraya Power Station (PSPS) site in October 2024. YTL PowerSeraya's CCGT power plant will be at least 30% volume hydrogen-ready, with the ability to be retrofitted to become operationally 100% hydrogen-ready in the future. This will aid in emission reduction as the combustion of hydrogen gas generates no greenhouse gases, thereby underscoring the organisation's commitment to environmentally sustainable practices.

As power generation is an essential service, electricity demand is expected to remain stable. This segment will continue to focus on customer service, operational efficiency and exploring diversification beyond the core business into integrated multi-utilities supply.

The Group will be developing a large portion of the Kulai Young Estate into a large scale solar power facility with a generation capacity of up to 500MW to co-power a 500MW green data center park. This is in line with the Group's shift towards investing in more sustainable renewable energy solutions moving forward.

Water & Sewerage

In February 2025, Wessex Water requested its regulator, Water Services Regulation Authority (Ofwat) to refer its final assessment of the Wessex Water business plan for 2025-30 to the Competition and Markets Authority (CMA) in regards to allowance of total expenditure over the next 5 years. Ofwat has accordingly referred its request, together with that of four other companies to the CMA for a re-determination of their price review. Wessex Water awaits the outcome of the CMA referral which runs for up to 12 months from the date of referral. Outside of the appointed business Wessex Water continues to explore low risk opportunities for organic growth within the wider UK group.

Telecommunications

The Group's YES #FirstTo5G and Infinite data plans which currently provide unlimited 5G plus 4G data and its Infinite+ device plans, enable users to experience the fifth generation of wireless mobile technology, delivering higher data speed, ultra-low latency, more reliable coverage, massive network capacity and a more uniform user experience. YTL Communications Sdn. Bhd. expects to extend its 5G services to the rest of the country in tandem with the rollout of Digital National Berhad's ("DNB") 5G network.

By continuing to offer affordable data plans and offering innovative 5G services, this segment is looking to increase its subscriber base bolstered by partnerships and collaborations.

Investment holding activities

The Group is currently developing the YTL Green Data Center Park within the Kulai Young Estate in Johor. This will be the first data center campus in Malaysia to be copowered by on-site renewable solar energy. To date, the first phase of the data center park is operational with construction of subsequent phases in progress. The campus will incorporate innovative and sustainable solutions in design and operations to achieve high-energy efficiency. It is expected to serve a growing demand in the region for eco-friendly, cost-efficient data center solutions from hyperscalers and co-location customers alike.

The Group in consortium with Sea Limited was awarded a digital banking licence by Bank Negara Malaysia in April 2022. This new venture, which will leverage multiple synergies between the Group and Sea Limited, will enable the Group to further contribute to the growth of Malaysia's digital transformation and broaden access of its citizens to financial services, particularly the underserved and underbanked, as well as micro, small and medium enterprises (MSMEs).

Operating as Ryt Bank, the Ministry of Finance (MoF) issued the digital banking licence to YTL Digital Bank Berhad with effect from December 20, 2024.

Ryt Bank, is backed by shareholders, YTL Digital Capital Sdn. Bhd. and Sea Limited. By harnessing the power of Artificial Intelligence (AI) to provide an unparalleled customer experience, the bank intends to deliver financial services that are meaningful and inclusive while helping customers achieve their financial goals.

The Group expects the performance of its business segments to remain resilient due to the essential nature of its operations, and will continue to closely monitor the related risks and impact on all business segments.
